**Re: Compulsory Compliance Requirements for Centre Fire**

Dear Club Secretary

The NSWAPA has been able to obtain concessions on the Mandatory Requirements for Attendances for Centre Fire. We have been able to get to get time extensions for those of you who cannot meet your minimum number of attendances for Centre Fire due to the chronic lack of reloading Components.

We understand the problems that many of you have been having, and we can assure you that the delay in getting some result, is not for lack of trying on our behalf. The NSWAPA has been making representations on this matter for the last 18 months.

If you cannot get your mandatory attendances up in the allotted compliance period, write to the Firearms Registry and request an extension of time.

We are sure that this may cause a bit of a logjam at the Registry, but that is what has been offered as a solution.

Remember that the NSWAPA is always fighting for you and your sport.

Kind regards

**Brian Cheers**  
NSWAPA Sports Administrator
