Re: Timelines PTA's and Formal ID Requirements License Renewals

Dear Club Secretary

The NSWAPA has been receiving a lot of complaints recently about the length of time that it is taking for a response to online applications for a permit to acquire. We can confirm that the FAR is about one month behind where they have been and they are making all efforts to try and catch up.

We have just received advice from a member renewing his license and discovered at the Service NSW Office, that they have changed the requirements necessary to make up 100 points of identification.

This has caused the individual concerned to use his Passport. If he had not had a passport and no Birth Certificate, it would have taken an extra couple of weeks to get a copy of his Birth Certificate.

Please examine the other attached document and if you may require your birth certificate, please apply for it now so that you will not be delayed in the future.

Regards

Brian Cheers
NSWAPA Sport Administrator
